Gitxsan Energy Inc. To Study Renewable Energy Resources

Osoyoos, BC - September 15, 2011 Gitxsan Energy Inc.(GEI) is pleased to announce that it has selected Kerr Wood Leidal Consulting Engineers (KWL)to perform a renewable energy inventory for the 33,000 Square kilometer Gitxsan Statement of Claim (GSoC) Area.

The announcement was made at the National Aboriginal Business Opportunities Conference in Osoyoos (NABOC), an Aboriginal - Private Sector series of networking events whose primary goal is to facilitate positive and equitable business relationships between Aboriginal peoples and Canadian private sector companies.

“With the Northern Transmission line (NTL) moving forward, oil & gas and mining opportunities set to advance, there has never been a better to time take stock (Lidjilxw) of the natural resources available for development in Gitxsan Country”, said Jako Krushnisky, President and CEO. “The assessment will consider electricity generation sources, including hydropower, wind power and biomass over all Gitxsan Lax yip (land)”.

About Gitxsan Energy Inc.

GEI is a wholly owned subsidiary of the Gitxsan Development Corporation (GDC), whose mandate is to facilitate the development of energy related projects for the benefit of Gitxsan people, working directly with Private Sector companies and Gitxsan House Groups.

About Kerr Wood Leidal Consulting Engineers

KWL provides consulting engineering services in infrastructure and resource management to government, industry and First Nations. KWL has received many engineering awards, including the Schreyer Award, Canada’s highest honour for consulting engineering excellence.
